(54) PC CARD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a PC card provided with an interface capable of removing a bottle neck in the transfer rate of the interface itself and having a transfer rate necessary for smoothly displaying a motion picture.

SOLUTION: The PC card is provided with a general interface 16 for transferring controlling command data or the like and an exclusive interface 15 for transferring much data such as video data from an external storage device 17 at a high rate. In the case of receiving motion picture data from the device 17, the PC card is switched to the picture interface 15 to receive data, extends the received data by a motion picture expert group(MPEG) decoder 1 and transfers the extended data to a note PC.
